Item Detail - ANSI/ NCSL Z540.1-1994 (R2002) - Print Version

In 1994, as a cost saving measure the Department of Defense prohibited the use of all military standards in favor of commercial performance standards. In response, NCSLI members quickly developed ANSI/NCSL Z540-1. Z540-1 was renewed several times until it was rescinded in 2007, after the newer ANSI/NCSL Z540.3 was approved.

Z540-1 Calibration Service Explained

ANSI/NCSL Z540 From 1994 to 2000, U.S. national standards for calibration laboratory accreditation were set out in the American National Standards Institute standard, ANSI/NCSL Z540-1-1994, "Calibration Laboratories and Measuring and Testing Equipment - General Requirements." These standards have been updated twice since 2000.

What is an ANSI Z540? | Bizfluent

Abstract. Withdrawn as an active standard (July 2007) and superseded by ANSI/ISO/IEC 17025:2005 for part 1 and ANSI/NCSL Z540.3-2007 for part 2. This standard provides a mechanism for promoting confidence in calibration laboratories and measuring and test equipment when it can be shown that they are operated in compliance with its requirements.

ANSI-Z540.1 | Laboratories, Calibration, and Measuring and ...

The Z540-1 has been an American National Standard since 1994. Part I of Z540-1 is based on the ISO/IEC Guide 25. Part II of Z540-1 is based on MIL-STD 45662A and was included to meet U.S. Department of Defense requirements.

Comparison of ANSI/NCSL Z540.1 to ISO/IEC 17025: 2000

ANSI Z540.1 was titled Laboratories, Calibration, and Measuring and Test Equipment. Released in 1994, it consisted of 2 parts — the Part 1 was based on the old ISO/IEC Guide 25 (now ISO/IEC 17025). The Part 2 was based on the MIL-STD-45662 Revision A. So you can see that the document was a natural successor to the old military document.

What is the difference between ANSI Z540.1 and ANSI Z540.3 ...

ANSI/NCSL Z540-1 •A U.S. nationalstandard •First issued 1994 •Requirements for operating a Calibration Laboratory (part I) •Compliance of suppliers to customer requirements (part II) •Withdrawn 2007, replaced by ISO/IEC 17025 (part I) and ANSI/NCSL Z540.3 (part II) 9

ANSI/NCSL Z540-1-1994 is an American National Standard. The Z540-1 is officially retired in 2006, however, it is the typical document met by almost every calibration lab in the US. ANSI/NCSL Z540.3-2006 is the official replacement for Z540-1, however, its acceptance is currently still limited, and required only by a few organizations such as NASA.
