Why the Power Commander V EFI Tuner? If you get new header pipes, mufflers, or air intake on your Indian motorcycle then you need to re-map the electronic fuel injection (EFI) so your bike will run optimally and you'll gain added performance. That is where the Power Commander V comes into play.

### **Install Power Commander V EFI Tuner on Indian Touring Model**

Electronic fuel injection (EFI) consists of throttle bodies that take the place of the carburetors, the ECU computer and special sensors. The ECU computer makes fuel calculations based on inputs from sensors on the engine and at the throttle bodies. In most cases, a high-output fuel pump is needed to meet the demands of the system.
